

Hydra-Slide Aluminum Support Beams

Shown with LP350 Skidding System Tracks

Engineered, light-weight aluminum beams to provide enhanced gap-spanning capability for Hydra-Slide XLP150 and LP350 skidding systems.

- Hand-portable & robust
- Simple finger joints with pin connections
- Up to 3.5' (1.1m) span with full capacity
- Stamped, engineered load chart provided
- Enhances structural integrity of low profile skidding systems
